A top-notch remote surveillance camera system with a 32-terabyte hard drive is a great choice for large-size properties. For a smaller yard, a wireless system has plenty of budget-friendly choices and is easier to install. An Internet Protocol, or IP security camera system, connects directly to a network to transmit digital video using fewer cords.

Security Camera Systems - Video Surveillance - The Home Depot

A wired security camera system, while often more complex to install, is generally more noticeable, and for the most part provides the clearest picture and most reliable service. Wireless security camera systems have become very popular because they tend to offer more location flexibility.

The second important thing to say is that the Arlo Pro 2 has a surprisingly ear-piercing in-built alarm, so it functions as a home alarm system as well as a security camera.

The best home security cameras - The Telegraph

A CCTV system is limited in scope. These systems lack extra precautions like open/close sensors, and they don't have the professional monitoring that you get with security systems. That said, CCTV systems are ideal if you want to be more hands-on with your home security.
