Note that some of the "free" ebooks listed on Centsless Books are only free if you're part of Kindle Unlimited, which may not be worth the money.

Raven Et Al Biology 10th

Notice I didn't say "textbook" because this book is definitely readable front to back. Raven Biology has always been known to be complete and thorough in previous editions and this one is no exception. I have been a Biologist for 34 years and this is one of the Biology books that I seek out for updated editions. I have not been disappointed yet.
