Stephens' Detection of New Adverse Drug Reactions

Stephens' Detection of New Adverse Drug Reactions ISBN 0-470-84 552-X Adverse drug reactions have a history that goes back thousands of years [1]. However, modern interest, which started in the 1930s, dates largely from the period 1975–1985, marked at that time by a dramatic increase in the numbers of publications in whose titles or abstracts the words 'adverse drug reaction(s)' appeared (Figure 1).
