trades two days a week. If conditions are optimal and the system gives a signal to trade, a credit spread position is initiated on weekly options that expire in the next few days.

Weekly Trading System | A Proven Trading System for Weekly ...

Weekly options refer to options that expire on a weekly basis. The advantage of trading weekly options as it pertains to our options trading algorithms is that we will not hold any positions over the weekend. Weekly Options have been around for over a decade now, however they began seeing more widespread use just after the great recession.

The Basics of Weekly Options Trading | AlgorithmicTrading.net

Available Weeklys - Index, pm-settled, cash. ** S&P 500 Index ("SPX") Weekly options trade on CBOE with PM settlement and are listed under the root ticker symbol, "SPXW" and are commonly included in SPX (traditional)

options chains which are AM settled. Also, EOW SPXW options typically expire on Friday, Monday SPXW options typically expire on Monday, and Wednesday SPXW options typically expire on Wednesday.

Available Weeklys - Chicago Board Options Exchange

Weekly options provide traders with the flexibility to implement short-term trading strategies without paying the extra time value premium inherent in the more traditional monthly expiration options. Thus traders can now more cost-effectively trade one-day events such as earnings, investor presentations, and product introductions.
